PORTFOLIO

GRAPHIC DESIGNER AND 3D GENERALIST

Hello. I'm

FATHIMA NOURIN

Graphic Designer & 3D Genaralist

With over 2 years of experience in creating visually compelling designs that resonate with audiences.

My passion lies in transforming ideas into impactful visual narratives, from brand identities and logos to social media graphics, print materials, and web assets. With a keen eye for detail and a strong foundation in design principles, I specialize in delivering creative solutions that align with client goals and industry standards.

Whether it's crafting a cohesive brand image or enhancing user experiences through thoughtful design, I thrive on blending creativity with functionality. I'm constantly evolving, learning new trends and technologies to keep my designs fresh and relevant in this ever-changing digital landscape.

LEMON

DESCRIPTION

Mint and lemon water is a refreshing, healthy drink made by infusing water with fresh mint leaves and lemon slices. It hydrates, aids digestion, supports detoxification, and boosts immunity due to the vitamin C in lemons. This flavorful beverage is easy to make, naturally cooling, and can be enjoyed throughout the day for its health benefits.

Virtual Reality (VR) is a technology that immerses users in a simulated, interactive 3D environment using devices like VR headsets. These devices track head and hand movements to provide a fully immersive experience, often used in gaming, training, education, and simulations. VR creates the sensation of being physically present in a digital world.
